FIGHTERS ARRESTED

Under Bonds to Keep the Peace.

McAuliffe and Slavin Held by the Police.

Various Charges as to Why the Mill Was Not Allowed to Proceed.

LONDON, September 22.—McAuliffe was arrested at his lodgings in this city this morning. Slavin was arrested on arrival from training quarters at Dover. They were arraigned this afternoon at Lambeth Palace on the charge of conspiring to commit a breach of the peace and bound over in £2000 each to appear tomorrow.

Richard K. Fox, of New York, in an interview denounced the arrest as an outrage. He said it was not proposed to have a prize fight, but only a limited round contest with ordinary gloves and that there was no reason why the police should interfere. Both men were in splendid condition and anxious to have a fair contest, and the police had no reason to anticipate a breach of the peace. The fight was nothing but what often occurs openly in England and America.

Beuple, proprietor of the Ormonde Club, said he believed the management of the Pelican Club was at the bottom of the matter. If the fight had been arranged by the fashionable West End club the police would not have interfered, in his opinion. The Pelicans were jealous and he had expected all along the gloves before the fight. He did not believe there was anything "snide" about the two fighters, who were both anxious to see which was the better man.

In the court, the Police Inspector in justifying the arrests, said the match was to be a genuine prize fight. He produced a copy of the article and the gloves, as exhibited in the windows of a Sporting paper, were smaller than ordinary gloves and were thinned around the knuckles.

The Secretary of the Ormonde Club said the gloves were ordinary boxing gloves, the contest to be fought in accordance with Queensberry Rules. No breach of the law was intended. He added that the police had been incited to make the arrest by jealous enemies of the club. The Inspector denied that the police had been incited.

The magistrate rejected the plea to produce the gloves before finally deciding as to the illegality of the fight. He added that if, in the meantime, the prisoners should venture to proceed with the fight he would deal with them severely. The suddenness of the arrest prevented the defense from obtaining counsel. Tomorrow the legal question will be argued. At a meeting of the Ormonde club tonight it was decided, if an adverse decision was rendered, the match will be decided on the continent.

New York, September 22.—A special cable to the *Police Gazette* says many rumors are being circulated about the fight. Billy Madden, McAuliffe's trainer, claims Slavin is afraid of the American and believes he did not want to meet him. A well-known American says the arrest of McAuliffe is due to the fact that Slavin has trained off and those who backed him and the American arrested to save their money.

Crichton Temple, of the Ormonde Club, attributes McAuliffe's arrest to the fact that the Prince of Wales was going to attend the fight. At a meeting of the Pelican Club today Lord Londale and Richard K. Fox, of New York, decided that rather than see the match fall through they would, if the authorities prevent it, put up between them the same purse offered by the Ormonde Club and bring the fight off on the continent.

TESTING SHIPS' ARMOR.

Firing at Steel Plates at the Annapolis Proving Ground.

ANNAPOLIS, Md., September 22.—Three shots from an eight-inch gun were fired this morning at the Naval proving grounds, in the presence of the Secretary of the Treasury and Naval board, at the Crescent plate, nickel plate and Cammell plate armor for naval vessels. The two first named are French plates, the last the plate armor used on English war ships. The nickel plate stood the test as it did the first test last week. The best of three English plates were battered to pieces.

The English plate was battered to pieces. Almost the whole of the three-inch steel plating was carried by its iron backing. The shot went clear through the iron backing, also the supports, and came out of a mound of earth twenty feet back of the plates. The iron backing was not split, but the shot went through it.

The two French plates were not penetrated entirely. The Crescent plate was penetrated and cracked from circumference to center. The nickel was penetrated, but remained intact. The Cammell plate was wrecked.

FALSELY ACCUSED.

John Daly the Victim of an Irish Police Plot.

LONDON, September 22.—William O'Brien has written a letter to the secretary of the John Daly amnesty committee saying that he has been for some time in communication with an Englishman of eminence in Birmingham, who has discovered startling proofs that Daly was the intended victim of a plot organized by Irish police emissaries under the authority of the chief constable of one of the principal cities in Ireland.

The chief constable, O'Brien says, has made a full confession and a statement has been sent to Home Secretary Matthews. Daly is serving a sentence of life imprisonment for dynamiting.

THE SITE SELECTED

World's Fair Location at Last Settled.

A Popular Site Is Finally Offered.

Demand of the National Commission Conceded—Much Rejoicing in Chicago.

CHICAGO, September 22.—The World's Fair site question has been settled by today's action.

In the morning the South Park Commissioners agreed to add Washington Park to portions of the South Park system already offered to the Commission. This was in accordance with a resolution adopted by the National Commission last Saturday.

At this afternoon's session the National Commission's amended site proposition was presented and unanimously accepted. The site thus provided for includes Washington and Jackson Park, the midway Plaisance connecting them, and Lake Front Park, in all about 1000 acres.

The chosen site is one great unit, comprising as it does the entire South Park system of Chicago, the finest of any in the city. The enthusiasm with which the tender was received by the National Commission showed in sharp contrast with the reception of previous propositions.

THE SITE SELECTED

World's Fair Location at Last Settled.

A Popular Site Is Finally Offered.

Demand of the National Commission Conceded—Much Rejoicing in Chicago.

CHICAGO, September 22.—The World's Fair site question has been settled by today's action.

In the morning the South Park Commissioners agreed to add Washington Park to portions of the South Park system already offered to the Commission. This was in accordance with a resolution adopted by the National Commission last Saturday.

At this afternoon's session the National Commission's amended site proposition was presented and unanimously accepted. The site thus provided for includes Washington and Jackson Park, the midway Plaisance connecting them, and Lake Front Park, in all about 1000 acres.

The chosen site is one great unit, comprising as it does the entire South Park system of Chicago, the finest of any in the city. The enthusiasm with which the tender was received by the National Commission showed in sharp contrast with the reception of previous propositions.

By a resolution adopted early in the day the National Commission had formally pledged itself to regard the offer of such a site as a "final settlement of all questions relating to a site" and when the Park Commissioners promptly responded and the exact location of the big exposition was at last fixed, there was an outburst of cheers.

Stepping from the doors of the city's railroad depots, hotels and business houses, visitors to the World's Fair will, as it were, enter directly the vestibule of the exposition on the lake front. This lake front is a strip of the park, comprising fifty acres bordering on the shore of Lake Michigan. Leading from it is the finest boulevard of the city, which leads directly to Washington Park. Connecting with the latter is the Midway Plaisance, which ends in Jackson Park, like the Lake Front. One side of Jackson Park is washed by the waves of Lake Michigan.

The greater portion of the site is one vast network of pleasure drives, enclosing great stretches of meadow and groves of oaks.

Adjoining Washington Park is the race track, capable of accommodating 50,000 people, and this the local directors expect to make a part, also, of the site, for the purpose of speed display and the live stock show. The race track, where the live stock show will be made, is within 100 yards of the point selected for the main building, thus placing the whole fair in one compact quarter of the city, including the Government display and the displays to be made by various States in conjunction with the main exposition buildings. The site selected and the plan of buildings proposed is generally regarded as calculated to be especially gratifying to the live stock men of the country.

This is the greatest reason for the selection of the site controversy in a way that will give general satisfaction.

HAWAIIAN AFFAIRS.

A Budget of News from the South Sea Kingdom.

SAN FRANCISCO, September 22.—The San Diego Steamship Company's steamer Farallon arrived here today bringing advices from Honolulu up to September 10.

The United States Steamer Iroquois arrived here September 7 from Samoa and on September 6 the United States Steamer Nipic sailed for San Francisco.

The day previous to the departure of the Farallon, Minister Stevens presented to King Kalakaua his credentials as Envoy Extraordinary and Minister Plenipotentiary of the United States. The King, in replying to the Minister's speech, said he appreciated the honor done his Crown and Kingdom by the action of the President of the United States in placing his representative to Hawaii on an equality with American representatives to the great nations of the world, and the expression thereby of the President's resolution with respect to the autonomy and welfare of the islands.

At a meeting of the Mechanics Union on September 5, it was decided to hold a mass meeting in the Palace Square September 9 to discuss constitutional affairs and to call on the National Reform party to pass a resolution of lack of confidence in the ministry.

A MEXICAN MANIAC.

Tries to Run Away With a Bisbee Locomotive.

J. S. Taylor, deputy sheriff of Cochise county, arrived in this city yesterday in charge of one Juan Herrera, an insane Mexican, who has violent inclination to murder almost anyone within reach.

Herrera has been cutting wood near Fairbanks and had not been regarded as at all dangerous. A week ago on Monday he came to Fairbanks and, taking an opportunity when no one was near, he climbed upon an engine of the Bisbee railroad, standing on the track with all steam up. He sprang without hesitation to the throttle and, evidently understanding its use, pulled the valve wide open.

Under ordinary circumstances, the locomotive, with all steam released, would have given a leap and been off down the track like a rocket. But the engineer had been careful to leave the reversal lever on the "dead center," and consequently the engine moved neither way.

Three men rushed up and seized the maniac before he could do any damage,

WORK OF CONGRESS

Number of Bills Passed by the Senate.

Plumb Calls for Information About Yosemite.

Again the Democrats Fail to Materialize in the House—No Quorum Present.

WASHINGTON, September 22.—The Senate passed a number of bills on the calendar including the Senate bill to change the boundaries of the Uncompahgre Indian Reservation. This is a modification of the bill having the same title which was vetoed by the President. Also the Senate bill relative to Pancho Punta De La Laguna.

Mr. Plumb offered a resolution which was agreed to calling on the Secretary of the Interior to report whether lands granted the State of California on certain conditions, by the act of June 30, 1864, including the Yosemite Valley and Mariposa Big Tree grant had been spoliated or otherwise diverted from public use contemplated by the grant.

A joint resolution proposing an amendment to the Constitution relating to the manufacture, importation, exportation, transportation and sale of alcoholic liquors was reached, and Mr. Blair called for a vote. Mr. Cookrell asked that the committee's report be read, and the reading occupying what was left of the hour assigned to the calendar, no vote was taken on the resolution.

The Senate then resumed consideration of the bill to define and regulate the jurisdiction of the courts of the United States, the pending question being on Mr. Daniel's amendment extending the jurisdiction of the Supreme Court. It was rejected. Mr. Vest offered a substitute for the bill, proposing three divisions of the Supreme Court of three justices each. The Chief Justice to make assignments to these divisions; that all final decisions of these divisions be considered by the court, and shall require the concurrence of five justices. Mr. Vest did not insist on a vote on his amendment, and the bill was reported from the Committee of the Whole to the Senate, which went into executive session and adjourned without disposing of it.
